

WHEN USING CANNA TERRA PROFESSIONAL PLUS SOIL MIX

WEEKS	-6	-5	-4	-3	-2	-1	1	2	3	4	5	6	7	8	FINAL WEEK	
GROWTH STAGE	CUTTINGS / SEEDLINGS		VEGETATIVE GROWTH				FLOWERING / FRUITING GROWTH									
BIO-VEGA	0-10ml	0-10ml	10-20ml	10-20ml	20ml	20-25ml	20-25ml	20-25ml							Just Water	
BIO-FLORES									30-35ml	30-40ml	30-40ml	20-30ml	20-30ml	20-30ml	Just Water	
BIO-BOOST							20ml	20ml	20-40ml	20-40ml	20-40ml	20-40ml	20-40ml	20-40ml	Just Water	

As well as Canna Terra Professional Plus, this chart can also be used with: Bio-Bizz Light Mix Soil, Canna Terra Professional Soil, Tropic Mix or Tropic Bat Mix

When using more heavily fertilized soil, like Bio-Bizz All-Mix, replace the Grow Schedule as follows:

WHEN USING BIOBIZZ ALL MIX SOIL

WEEKS	-6	-5	-4	-3	-2	-1	1	2	3	4	5	6	7	8	FINAL WEEK
BIO-VEGA					10-20ml	20ml	20-25ml	20-25ml							

All applications are based on dilution in 10L of water unless otherwise stated

TIPS ON USING BIO-CANNA

- The above feeding schedule should be used as a guide only. You should look for signals from your plant as to whether more or less feed is required. Environmental conditions such as temperature and humidity should also be taken into consideration.
- When growing in soil it's a good idea to use just water every 3rd watering or once a week to avoid over fertilisation.
- Each time you water, ensure you get some run-off. Around 20% is ideal.
- Do not adjust the pH of your nutrient solution when growing in soil. There is no need, the soil and microbes will do the buffering work for you.
- BioCanna works well with all major soil growing media available. We have seen exceptional results with both Bio-Bizz All- Mix and Tropic Mix and Canna Professional Plus Soil Mixes
- The above recommended boosters and additives are suggestions only. Other organic boosters and additives are available and will work equally as well with BioCanna. Call the Technical Team on 0333 003 22 96 for more info on what boosters can be used with BioCanna.
