All applications are based on dilution in **10 Litres** of water unless otherwise stated

\*Only use Vita Link Flush for the first half of your final week. For the last few days before harvest, use plain water.

## Tips on using Vita Link Coir

- The above feeding schedule should be used as a guide only. You should look for signals from your plant as to whether more or less feed is required.
- The above recommended boosters and additives are suggestions only. Other boosters and additives are available and will work equally as well with Vita Link Coir. Call the Technical Team on **0845 345 5176** for more info on what boosters can be used when growing in Coco/Coir.
