

# VITALINK HYDRO MAX FEED CHART

## WHEN USING ACTIVE HYDROPONICS SYSTEMS

WEEKS	-6	-5	-4	-3	-2	-1	1	2	3	4	5	6	7	8	FINAL WEEK
<b>GROWTH STAGE</b>	<b>CUTTINGS / SEEDLINGS</b>		<b>VEGETATIVE GROWTH</b>				<b>FLOWERING / FRUITING GROWTH</b>								
<b>VITA LINK HYDRO MAX GROW A</b>			10-20ml	10-20ml	20-30ml	20-30ml	30-40ml								
<b>VITA LINK HYDRO MAX GROW B</b>			10-20ml	10-20ml	20-30ml	20-30ml	30-40ml								
<b>VITA LINK HYDRO MAX BLOOM A</b>								30-40ml	30-40ml	30-40ml	30-40ml	20-30ml	15-25ml	10-20ml	
<b>VITA LINK HYDRO MAX BLOOM B</b>								30-40ml	30-40ml	30-40ml	30-40ml	20-30ml	15-25ml	10-20ml	
<b>VITA LINK PLANT START</b>	20-30ml	30-40ml													
<b>VITA LINK ROOT STIM</b>	10ml	10ml	10ml	10ml	5ml	5ml	5ml	5ml	5ml						
<b>VITA LINK FULVIC</b>			10ml	10ml	20ml	20ml	20ml	20ml	20ml	20ml	20ml	20ml	20ml	20ml	
<b>VITA LINK BUDDY</b>									5ml	5ml	10ml	10ml	10ml	10ml	
<b>VITA LINK TURBO</b>					10ml	10ml	10ml	10ml	10ml	10ml	10ml	10ml	10ml	10ml	
<b>VITA LINK FOLIAR*</b>					100ml per Litre	100ml per Litre	100ml per Litre	100ml per Litre	100ml per Litre						50ml*

All applications are based on dilution in 10L of water unless otherwise stated

\*Spray weekly 100ml per L

### TIPS ON USING VITA LINK NUTRIENTS

- Add feed first, then adjust pH to around 5.5 - 6.5.
- For longer vegetative cycles, increase grow strength gradually.
- A 2 Litre (1L A + 1L B) nutrient pack makes 250 Litres of solution at full strength.
- A 10 Litre (5L A + 5L B) nutrient pack makes 1250 Litres of solution at full strength.
- A 40 Litre (20L A + 20L B) nutrient pack makes 5000 Litres of solution at full strength.
- Hard Water and Soft Water versions of Vita Link nutrient are available. Same usage instructions apply.
